APOLLONIA- ARSUF

Final Report of the Excavations, Volume II: Excavations Outside the Medieval Town Walls

Oren Tal

This is the second in a series of final publications of the Apollonia-Arsuf excavations (see *Apollonia-Arsuf, Final Report of the Excavations, Volume I: The Persian and Hellenistic Periods*). It reports the finds from the 1996, 2002, 2006, 2012, 2013 and 2017 seasons. The main topics dealt with are: the excavation of areas to the east of the Apollonia National Park, outside the walled medieval town (Areas AA, CC, DD and their derivatives); the excavations carried out within and just outside the perimeter of the Apollonia National Park (Areas N, N1, M and O); skeletal remains; faunal remains; and a variety of finds including pottery, glass, stone, metal and bone objects, as well as numerous coins.

Professor Oren Tal, of the Jacob M. Alkow Department of Archaeology and Ancient Near Eastern Cultures at Tel Aviv University, serves as Director of the Apollonia-Arsuf Excavation Project (since 2007) and as CoDirector of the Tell Iztabba Excavation Project (since 2019).
