RAMAT RAḤEL VI

The Renewed Excavations by the
Tel Aviv–Heidelberg Expedition (2005–2010)
The Babylonian–Persian Pit

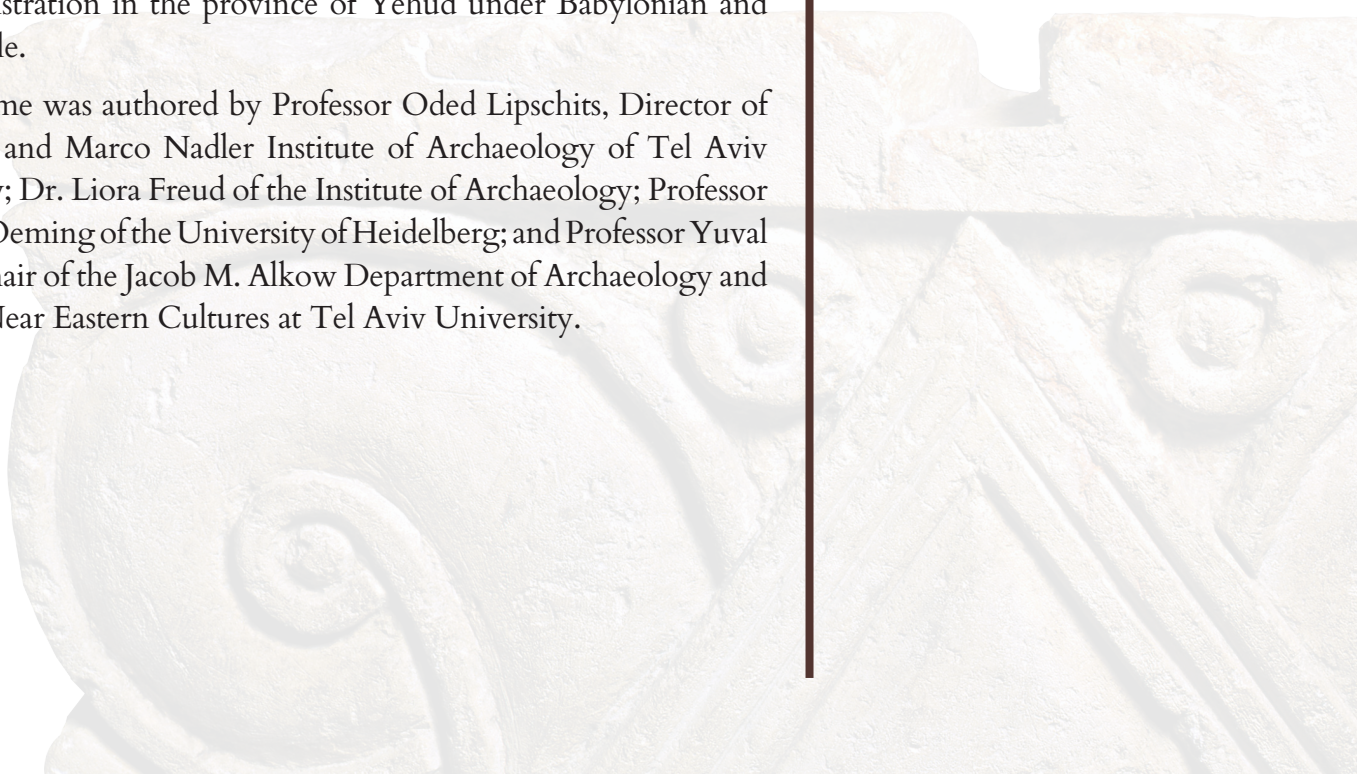

Oded Lipschits, Liora Freud, Manfred Oeming
and Yuval Gadot

This is part of a three-volume final report of the Renewed Excavations at Ramat Raḥel by the Tel Aviv–Heidelberg Expedition (2005–2010). It presents the finds from the Babylonian–Persian Pit, one of the most dramatic find-spots at Ramat Raḥel. The pit yielded a rich assemblage of pottery vessels and *yhwd*, lion and 6th-century “private” stamp impressions, including, for the first time, complete restored stamped jars, jars bearing two handles stamped with different *yhwd* impressions, and jars bearing both lion and “private” stamp impressions on their bodies. Residue analysis was conducted on many of the vessels excavated from the pit in an effort to analyze their contents, yielding surprising results. The finds contribute to our understanding of the pottery of the Babylonian and the early Persian periods (6th–5th centuries BCE) and to the study of the development of the stamped-jar administration in the province of Yehud under Babylonian and Persian rule.

This volume was authored by Professor Oded Lipschits, Director of the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University; Dr. Liora Freud of the Institute of Archaeology; Professor Manfred Oeming of the University of Heidelberg; and Professor Yuval Gadot, Chair of the Jacob M. Alkow Department of Archaeology and Ancient Near Eastern Cultures at Tel Aviv University.
